 LeetCode  HackerRank

Education

Btech in Artificial intelligence and Data science
Thakur College Of Engineering and Technology
CGPA: 9.105

2024 – present
Kandivali, India

Higher Secondary School
KV pendharkar college
Score : **71.83%**

2022 – 2024
Dombivli, India

Projects

Datalab

Django, Python, Pandas, Seaborn, Matplotlib, HTML, CSS, JavaScript

- Engineered a full-stack data analysis platform to upload, clean, and visualize CSV datasets
- Implemented data preprocessing features including handling missing values and column transformations using Pandas
- Integrated interactive visualizations (bar, histogram, scatter, line, box plots) using Seaborn and Matplotlib
- Developed user authentication system and enabled export of processed datasets
- Designed a responsive and user-friendly interface

ExpenseFlow

Flask, Python, MySQL, HTML, CSS, JavaScript

- Built a financial tracking web application to manage daily expenses and outstanding debts
- Designed modules for expense logging, debt tracking, and custom transaction tagging
- Integrated MySQL for structured data storage and retrieval
- Developed a responsive frontend with a Flask-based backend

Securekey

HTML5, CSS3, Javascript, Firebase(auth-firestore)

- Developed a secure password manager with authentication and cloud-based storage
- Implemented features to add, view, delete, and reveal stored credentials
- Integrated Firebase Authentication and Firestore for secure data handling
- Designed a clean and responsive user interface

Skills

Languages: Python, C/C++(basic), Java (basic)

Web Development: HTML5, CSS3, JavaScript, Flask, Django(familiar)

Libraries: Pandas, Numpy, Matplotlib, Seaborn

Database: MySQL

Tools & Platforms: VS Code, Git, GitHub, IntelliJ IDEA, Render, PythonAnywhere

Certificates

Python(HackerRank) 

Frontend web developer Modern HTML CSS JavaScript(Infosys) 

Python - Introduction to Pandas and DataFrames 

SQL(basic)
